Good afternoon,

I have looked with interest at a childsafe magazine in a Doctors surgery and was wondering if it would be possible to have a copy as I am currently doing a NVQ2 children's care and learning development and thought it would be very useful.

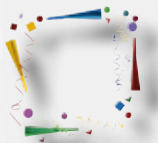

many thanks

Hello my name is Wendy and I am a community nursery nurse and I work along side health visitors. We were very impressed with childsafe magazine and was wondering if you would be able to send us some free copies to use with our parents.

Can you please send me another 5 copies of this magazine.

Many thanks.
